

# Bangladesh

## Country report card - adults

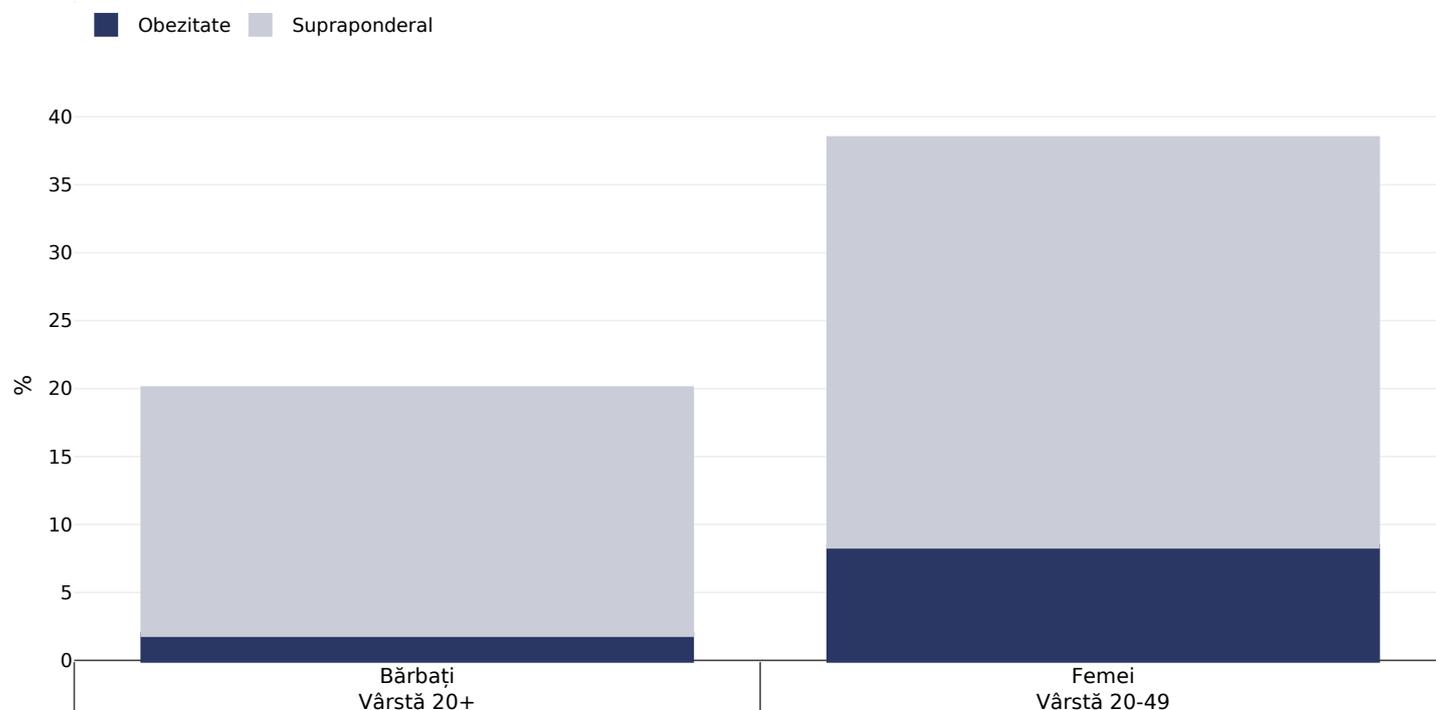

*This report card contains the latest data available on the Global Obesity Observatory on overweight and obesity for adults. Where available, data on common and relevant obesity drivers and comorbidities are also presented.*

*View the latest version of this report on the Global Obesity Observatory at <https://data.worldobesity.org/country/bangladesh-16/>.*

## Prevalența a obezității și supraponderalității

### Adulți, 2022

**Tip de studiu:** Măsurat

**Dimensiunea eșantionului:** 13970

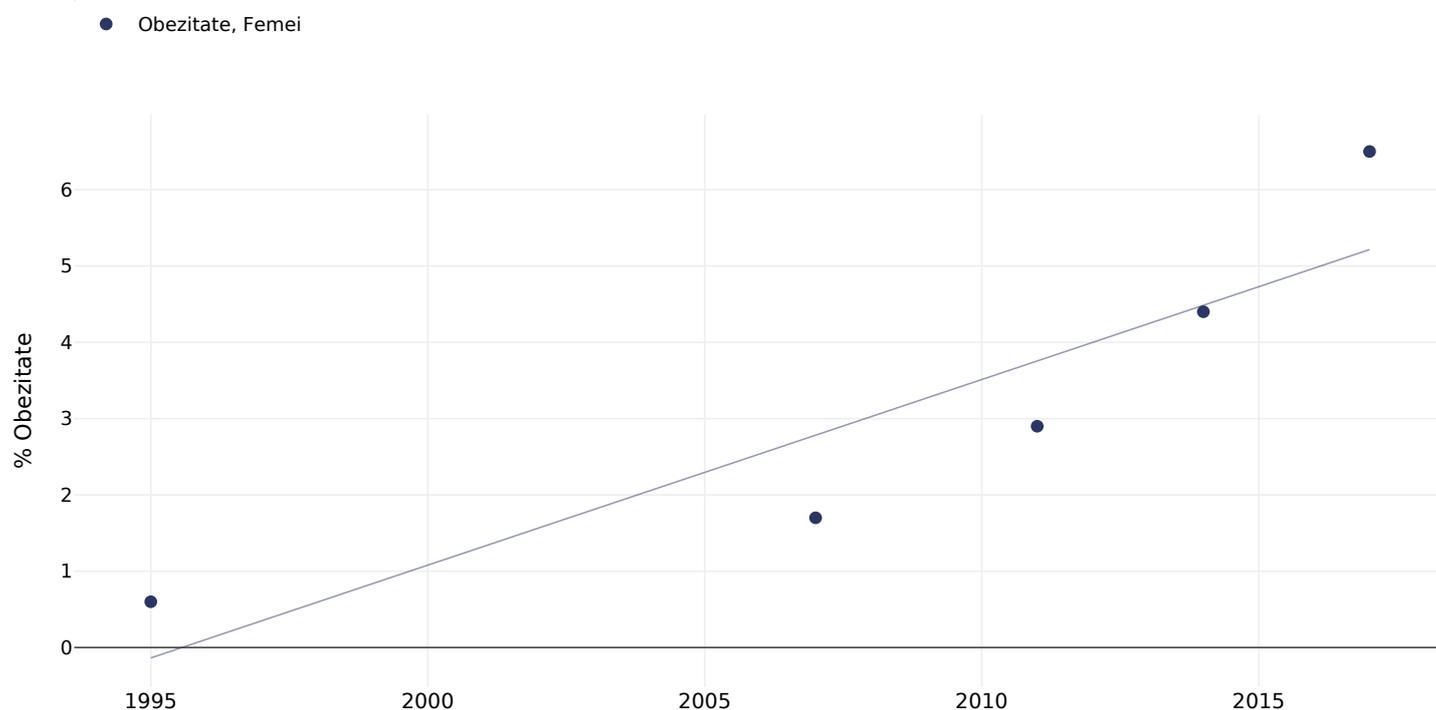

**Zona acoperită:** Național

**Bibliografie:** National Institute of Population Research and Training, Medical Education and Family Welfare Division, Ministry of Health and Family Welfare, Dhaka, Bangladesh, and The DHS Program, ICF, Rockville, Maryland, USA. Available at <https://dhsprogram.com/publications/publication-FR386-DHS-Final-Reports.cfm> (last accessed 05.02.25)

**Note (disponibile numai în limba engleză):** 8279 Women, 5691 Men

Cu excepția cazului în care se specifică altfel, supraponderalitatea se referă la un IMC între 25 kg/m<sup>2</sup> și 29,9 kg/m<sup>2</sup>, obezitatea se referă la un IMC mai mare de 30 kg/m<sup>2</sup>.
