

Mexico

Country report card - children

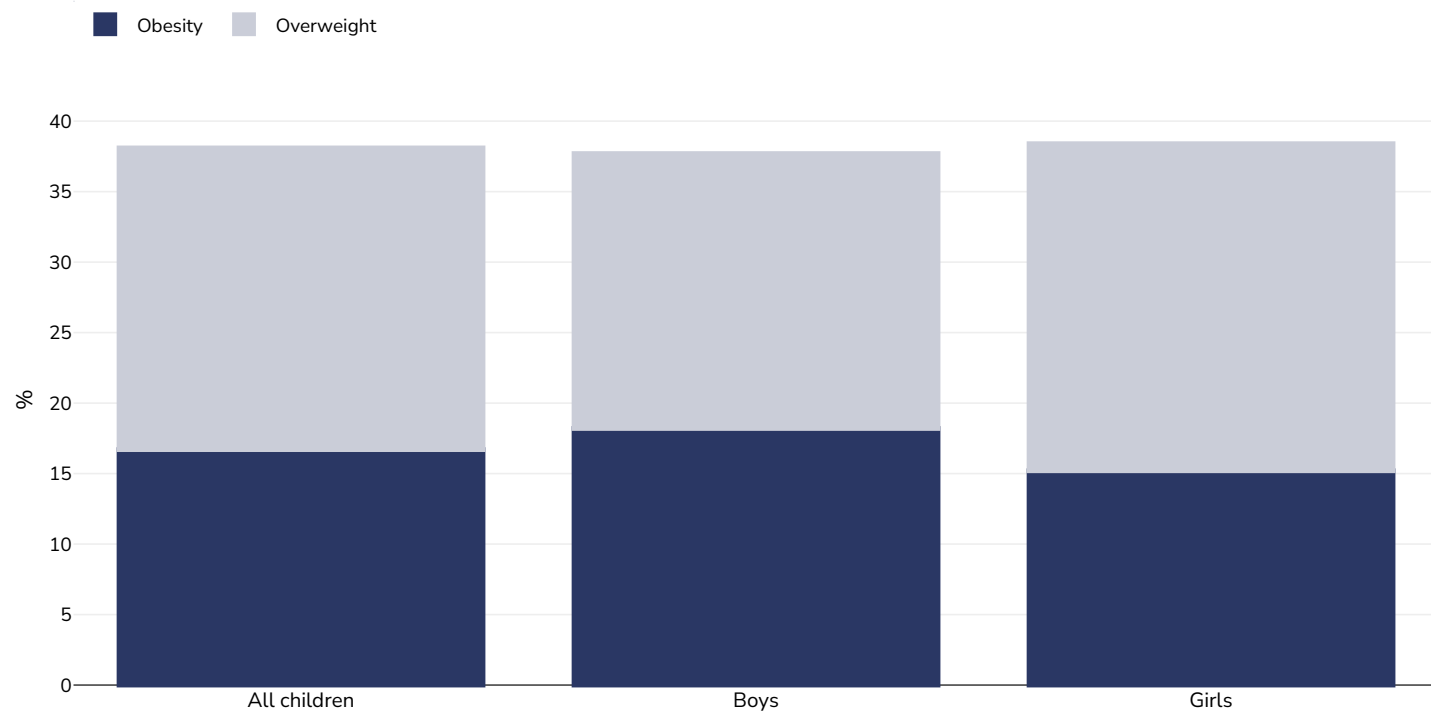

This report card contains the latest data available on the Global Obesity Observatory on overweight and obesity for children, including adolescents (aged 5 to 18 years). Where available, data on common and relevant obesity drivers and comorbidities are also presented.

View the latest version of this report on the Global Obesity Observatory at <https://data.worldobesity.org/country/mexico-139/>.

Contents	Page
Obesity prevalence	3
Trend: % 12-19 year old children living with overweight or obesity in Mexico 2012-2023	4
Trend: % 5-11 year old children living with overweight or obesity in Mexico 2012-2023	7
Overweight/obesity by education	10
Overweight/obesity by age	11
Overweight/obesity by region	12
Overweight/obesity by socio-economic group	15
Double burden of underweight & overweight	16
Insufficient physical activity	17
Mental health - depression disorders	20
Mental health - anxiety disorders	23

Obesity prevalence

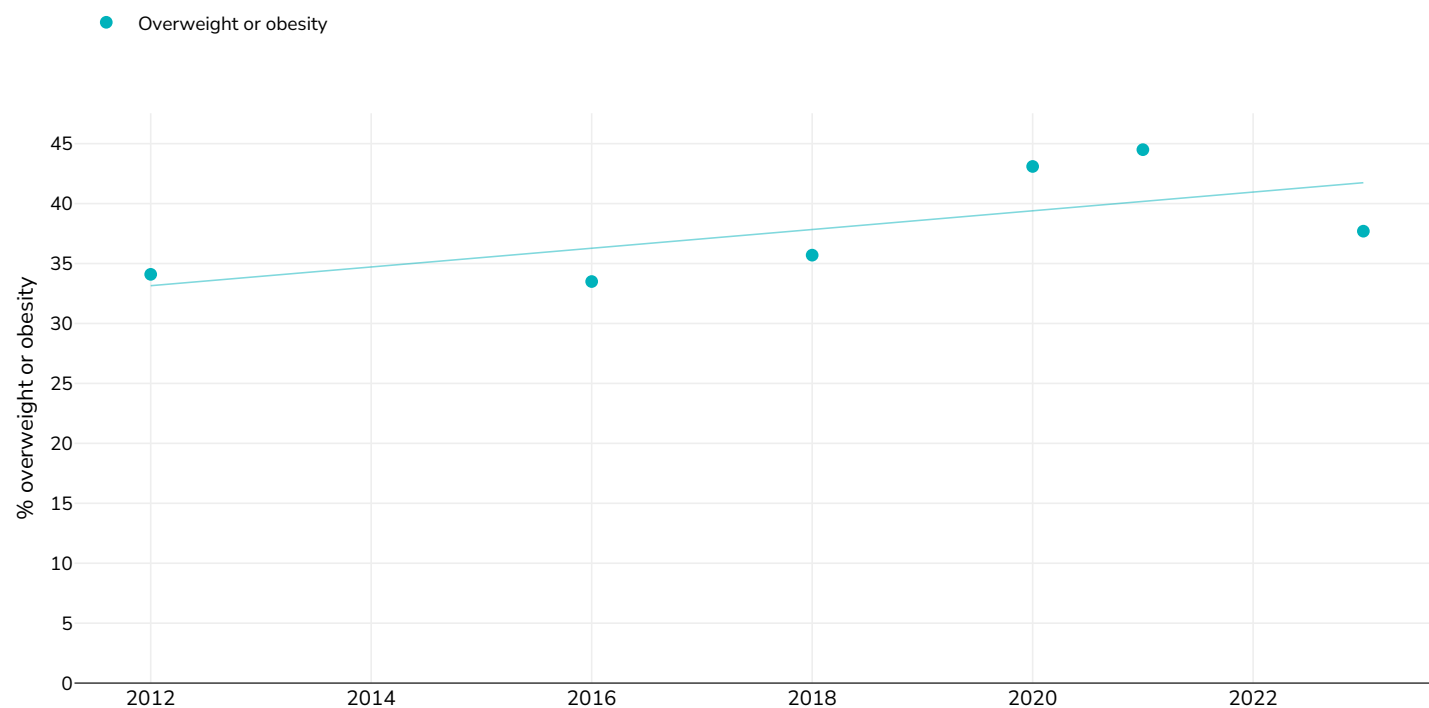

Children, 2023

Survey type:	Measured
Age:	12-19
Sample size:	1303
Area covered:	National
