

România

Country report card - under-5s

This report card contains the latest data available on the Global Obesity Observatory on overweight and obesity for children under 5. Where available, data on common and relevant obesity drivers and comorbidities are also presented.

View the latest version of this report on the Global Obesity Observatory at <https://data.worldobesity.org/country/romania-178/>.

Riscul național de obezitate *7/10 This is a composite obesity risk score (out of 10, the highest risk) based on obesity prevalence, rate of increase, likelihood of meeting the 2025 target, treatment indicator and childhood stunting levels.

Risc de obezitate infantilă *7/11 This is a risk score for each country's likelihood of having or acquiring a major childhood obesity problem during the 2020s, taking account of current prevalence levels and risk for future obesity (based on stunting among infants, maternal obesity, maternal smoking, and breastfeeding rates).

* Pe baza datelor estimate. Pentru mai multe informații, consultați Publicațiile

Prevalen a a obezit ii  i 0-5 years, 2002

V�rsta :	0-5
Dimensiunea e�antionului:	15456
Bibliografie:	Surveillance: National nutritional surveillance programme, 1993-2002. Bukarest, Romania, 2003 (2002 Extract)
