| Type d'enquête:  | Autodéclaré                                                                                                                                                                                                                                                                                                                   |
| Âge:             | 16+                                                                                                                                                                                                                                                                                                                           |
| Région couverte: | National                                                                                                                                                                                                                                                                                                                      |
| Références:      | Eurostat 2022 Data. Available at <a href="https://ec.europa.eu/eurostat/databrowser/view/ilc_hch10/default/table?lang=en">https://ec.europa.eu/eurostat/databrowser/view/ilc_hch10/default/table?lang=en</a> (last accessed 19.03.25)                                                                                         |
| Notes:           | EUROSTAT 2022 data derived from EU statistics on income and living conditions (EU-SILC) survey which includes adults aged 16+ years. This differs from most EUROSTAT data which is derived from the Health Interview Surveys, which includes adults aged 15+ years (though sometimes only data from adults aged 18+ reported) |

Sauf indication contraire, le surpoids fait référence à un IMC compris entre 25 kg et 29,9 kg/m², l'obésité fait référence à un IMC supérieur à 30 kg/m².
