Note (disponibile numai Ă™n limba englezĂf): Prevalence of overweight and obesity by asset quintiles. Socioeconomic quintiles are defined on the basis of assets and household characteristics, rather than income or consumption.

Cu excepÈ™ia cazului Ă™n care se specificĂf altfel, supraponderalitatea se referĂf la un IMC Ă™ntre 25 kg È™mi 29,9 kg/mÂ², obezitatea se referĂf la un IMC mai mare de 30 kg/mÂ².
