Marshall Islands: Overweight/obesity by education
Adults, 2017-2018

Survey type: Measured
Age: 18+
Sample size: 2869
Area covered: Regional

Notes: Although all islands were not surveyed, the islands included make up 83% of the overall population of the Republic of Marshall Islands. Despite this, sample size was exceptionally large and included approximately 10% of all adults residing in the Republic of Marshall Islands.

Unless otherwise noted, overweight refers to a BMI between 25kg and 29.9kg/m², obesity refers to a BMI greater than 30kg/m².
