

# An Ungáir: Leitheadúlacht murtail

Daoine Fásta, 1985-1988

<b>Cineál an tsuirbhé:</b>	Tomhaiste
<b>Aois:</b>	18+
<b>Samplamhéid:</b>	16641
<b>Tagairtí:</b>	Zajkas G, Biro G. Some data on the prevalence of obesity in Hungarian adult population between 1985-88 and 1992-94. Z Ernährungswiss 1998;37(Suppl 1):S134-135

Mura gcuirtear a mhalairt in iúl, is ionann rómheáchan agus ICM idir 25kg agus 29.9kg/m<sup>2</sup>, is ionann murtall agus ICM níos mó ná 30kg/m<sup>2</sup>.
