**Note (disponibile solo in inglese):** Prevalence of overweight and obesity by asset quintiles. Socioeconomic quintiles are defined on the basis of assets and household characteristics, rather than income or consumption.

Salvo diversa indicazione, il sovrappeso si riferisce a un BMI compreso tra 25 kg e 29,9 kg/m<sup>2</sup>, l'obesità si riferisce a un BMI superiore a 30 kg/m<sup>2</sup>.
