

Türkei: Übergewicht/Adipositas nach Alter

Kinder, 2008

Umfragetyp:	Gemessen
Stichprobengröße:	1735
Geltungsbereich:	National
Referenzen:	Agirbasli M, Adabag S, Ciliv G. Secular trends of blood pressure, body mass index, lipids and fasting glucose among children and adolescents in Turkey. 2012 Clinical Obesity 1, 161-167. doi:10.1111/j.1758-8111.2012.00033.x
Anmerkungen (nur in englischer Sprache verfügbar):	The paper suggests that overweight includes obesity, therefore obesity has been subtracted from the overweight figures.
