

Región del Sureste Asiático de la OMS

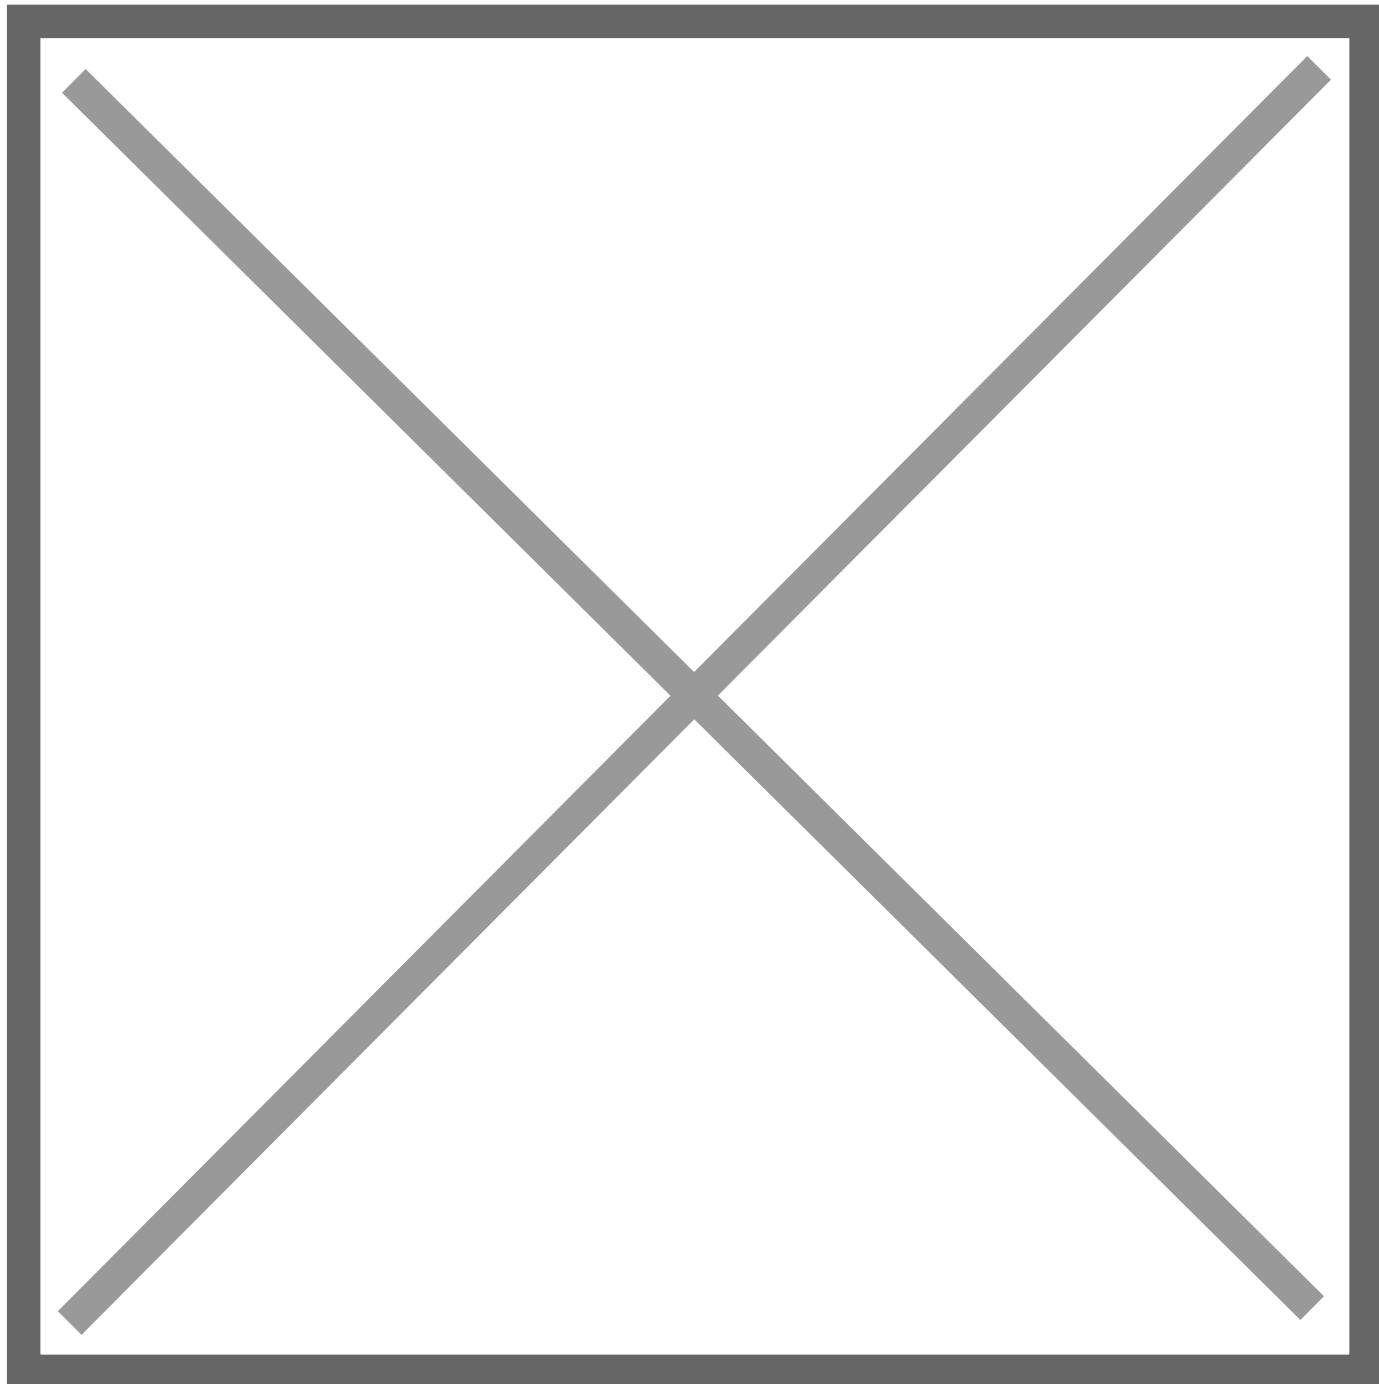

Regional report card - children

This report card contains the latest data available on the Global Obesity Observatory on overweight and obesity for children, including adolescents (aged 5 to 18 years). Where available, data on common and relevant obesity drivers and comorbidities are also presented.

View the latest version of this report on the Global Obesity Observatory at <https://data.worldobesity.org/region/who-se-asia-region-4/>

Prevalencia de obesidad

Niños

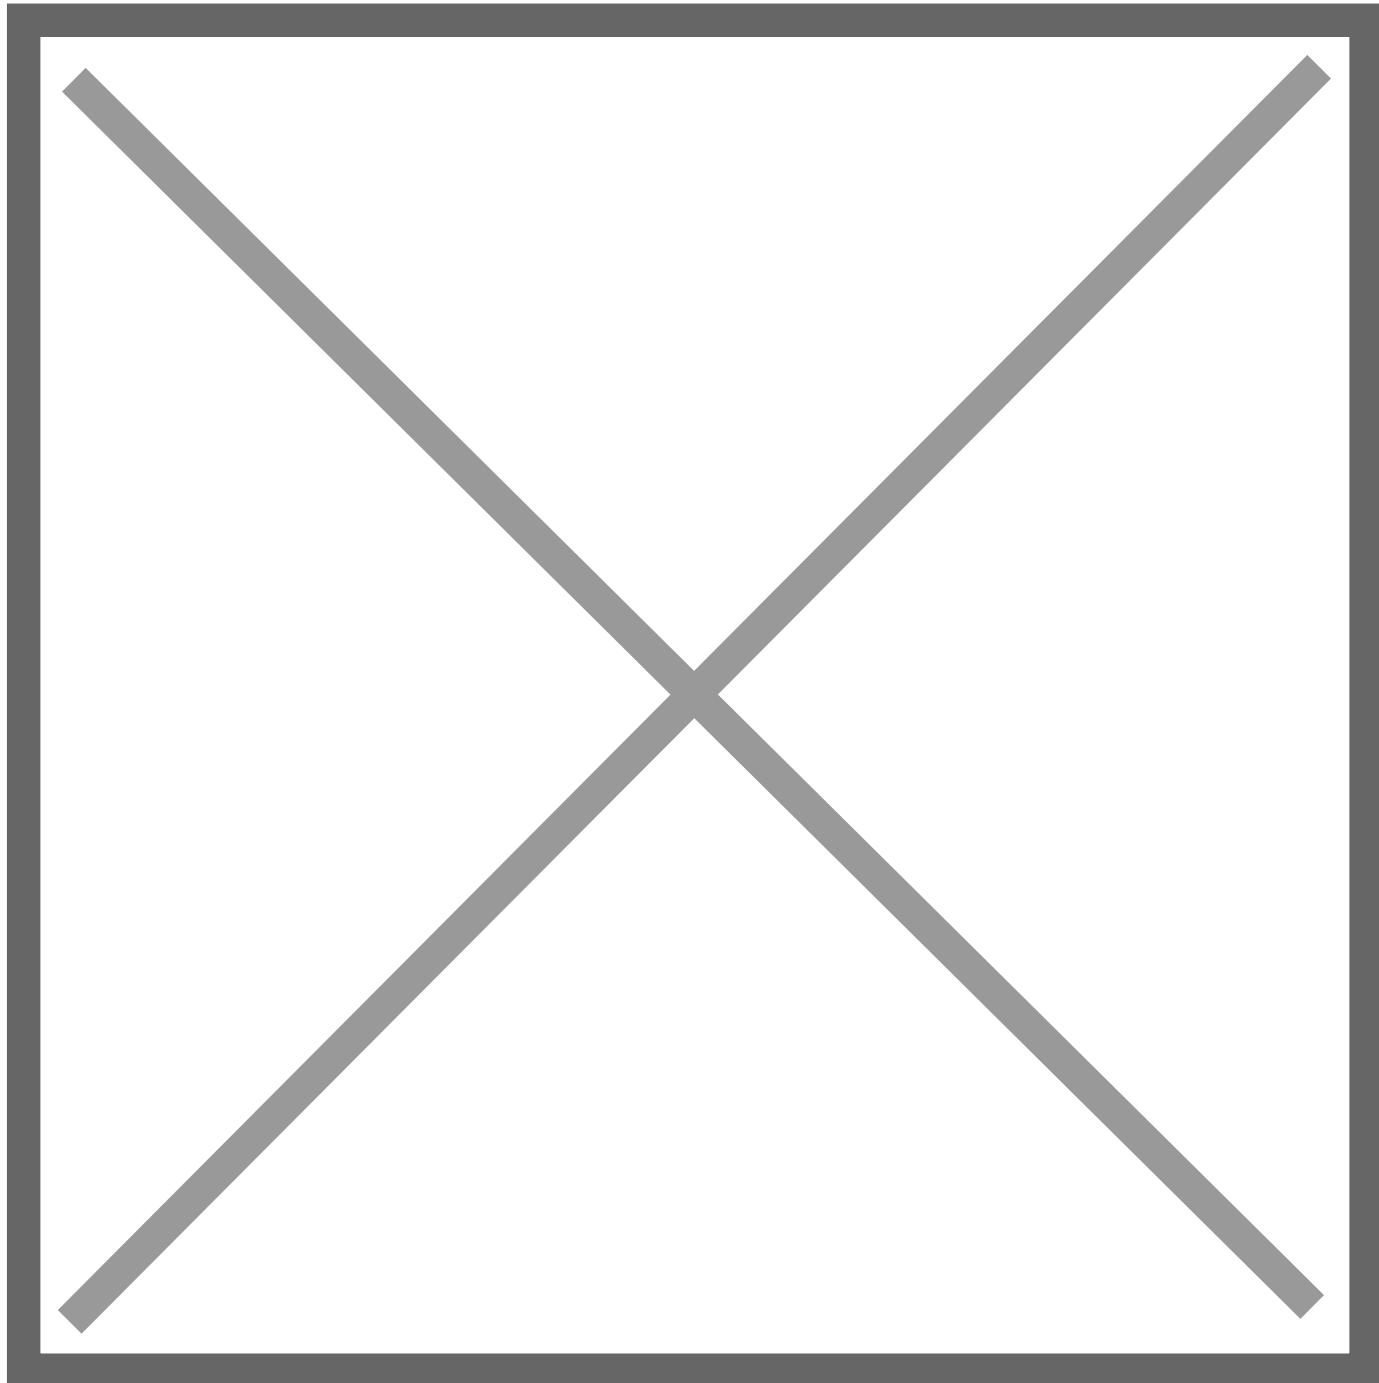

**Tipo de
encuesta:**

Countries marked with a * are using self-reported data.

Notas:

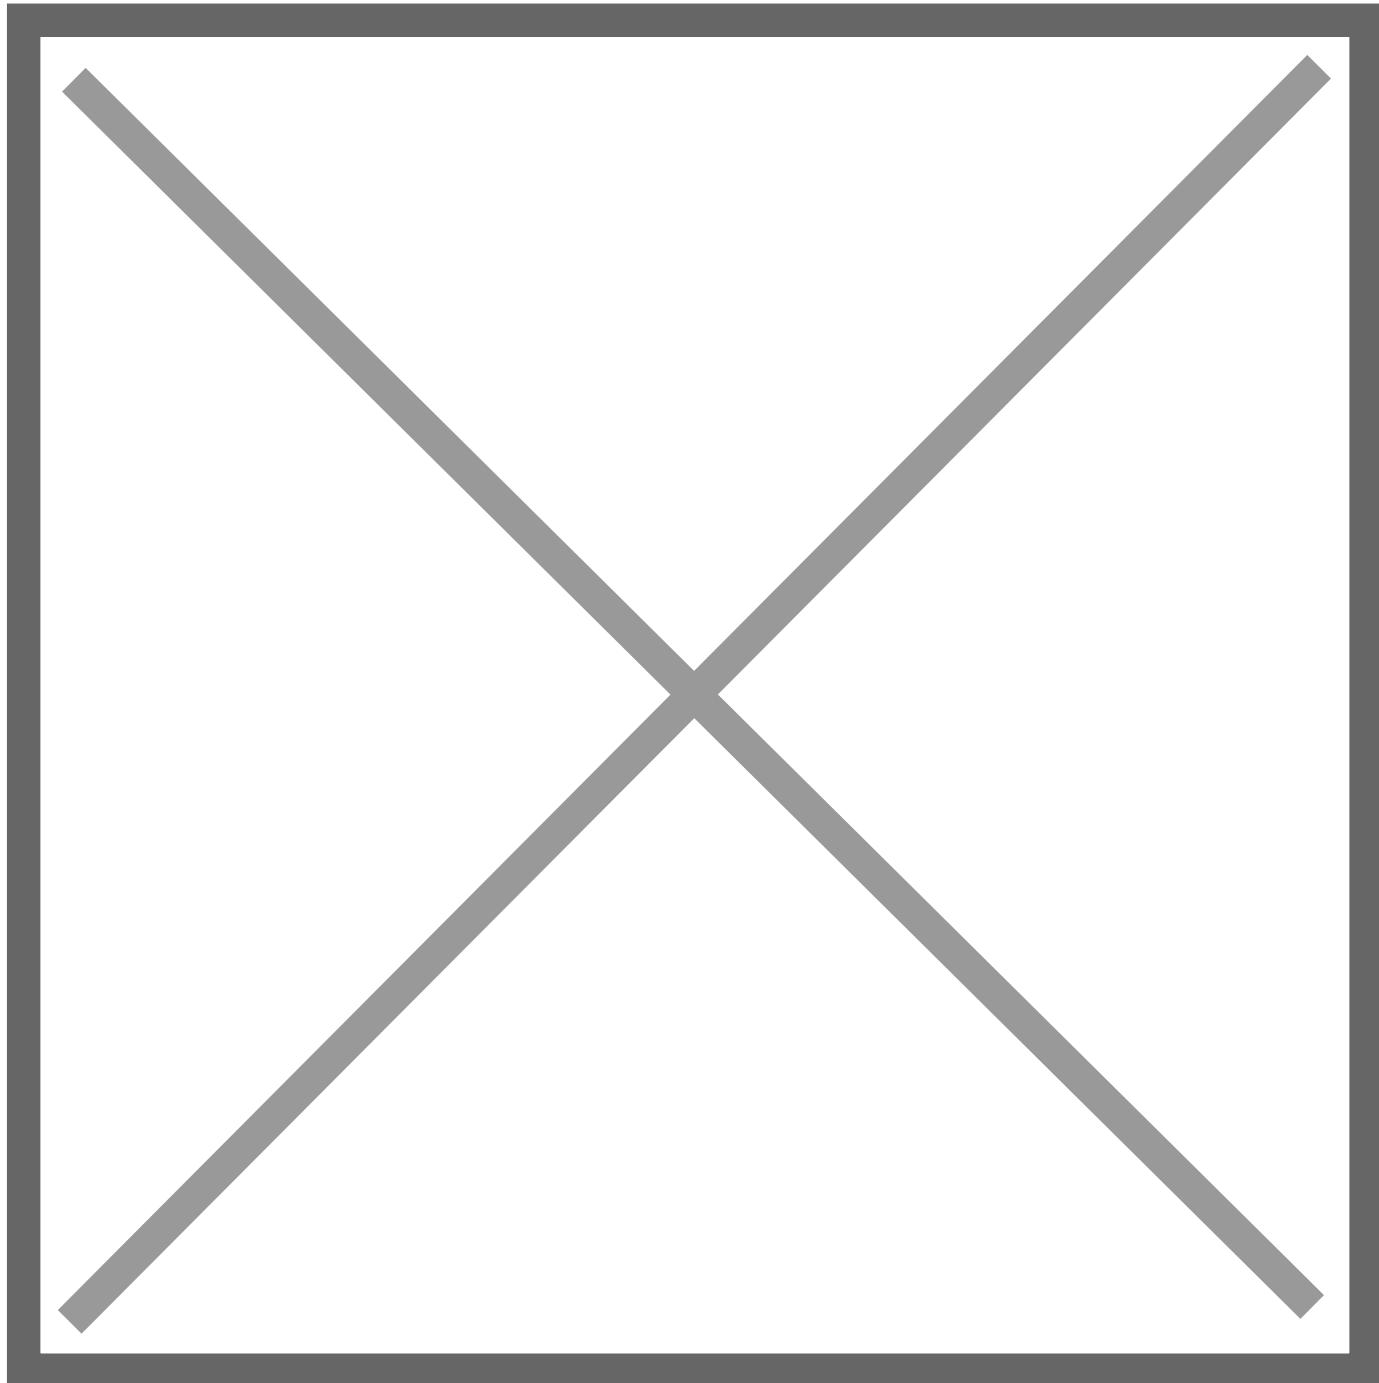

Different methodologies have been used to collect this data and so it is not strictly comparable.
